'SMART' PLASTICS: THE EVENT

Today's products are getting smarter. This demands intelligent materials. At present the plastics offer performance that will satisfy the most demanding requirements of the market. After two editions dedicated to the theme of the Metal Replacement, this year the Forum is focused on **'SMART' PLASTICS**, an event entirely dedicated to high-performance polymers.

The formula of **'SMART' PLASTICS** provides a program of reports on the state of the art of engineering polymers and composites, of their applications and design and processing technologies.

In calendar **24 | 25 September, 2015**, at the **Sheraton Milan Malpensa Airport Hotel**, the Forum is on four main topics:

- METAL REPLACEMENT
- HIGH PERFORMANCES
- LIGHTWEIGHT
- SURFACES

At the event are invited leader companies of different application sectors (**automotive, industrial, electrical / electronic, aerospace, medical etc.**) that will present their experiences and their future trends in the use of high-performance technopolymers

The Forum **'SMART' PLASTICS** is target to:

- Designers
- Design and Engineering studios
- Technical Managers
- Production Managers of companies in the Automotive, Components Technical Components, Medical, Aerospace, Electrical / Electronics, Appliances, Hobbies & Sports, Furnishings, etc... that search for solutions 'smart' for the industrialization of their projects /products.
